Professional Development 2011

PEPSE: Partnership in Experimental Physical Science Education

The CCNY PREM professional development series provides high school teachers with the opportunity to conduct team-based interdisciplinary research and design experimental teaching modules to enhance their current curriculum. Participants are eligible for PREM teaching fellowships awarded to teachers who implement the newly designed curriculum and utilize the experimental modules in their high school courses. PREM Fellows receive instructional support from our program and engage their classes in follow up workshops and program visits. PREM Teaching Fellows establish partnerships between their schools and CCNY PREM, broadening opportunities for other teachers and students to gain access to materials research experience.

Attached is our program application. The application must be supported by a copy of your CV/Resume and a Letter of Recommendation.

Please complete the application and send along with your CV/Resume, and Recommendation by June 27th.

Attn:

Debbie DelValle – PREM Administrator

City College CUNY

Steinman Hall 1M

140th Street and Convent Ave

New York, New York 10031

Or email to: PREM@ccny.cuny.edu

If emailing your application, have your recommender email their letter separately to expedite your application.
